Question 1: Create a dataframe that contains the GDP data and display the first five rows of the dataframe.

Use the dictionary `links` and the function `pd.read_csv` to create a Pandas dataframes that contains the GDP data.

Hint: `links["GDP"]` contains the path or name of the file.

```
In [4]:  import pandas as pd
         csv_path=links['GDP']
         df=pd.read_csv(csv_path)
         df.head()
```

Out[4]:

	date	level-current	level-chained	change-current	change-chained
0	1948	274.8	2020.0	-0.7	-0.6
1	1949	272.8	2008.9	10.0	8.7
2	1950	300.2	2184.0	15.7	8.0
3	1951	347.3	2360.0	5.9	4.1
4	1952	367.7	2456.1	6.0	4.7

Use the method `head()` to display the first five rows of the GDP data, then take a screen-shot.

Format Code

Question 2: Create a dataframe that contains the unemployment data. Display the first five rows of the dataframe.

Use the dictionary `links` and the function `pd.read_csv` to create a Pandas dataframes that contains the unemployment data.

In [7]:
```python
import pandas as pd
csv_path=links['unemployment']
df=pd.read_csv(csv_path)
df.head()
```

Out[7]:

	date	unemployment
0	1948	3.750000
1	1949	6.050000
2	1950	5.208333
3	1951	3.283333
4	1952	3.025000

Use the method `head()` to display the first five rows of the GDP data, then take a screen-shot.

In [8]:
```python
import pandas as pd
csv_path=links['unemployment']
df=pd.read_csv(csv_path)
df.head()
```

Out[8]:

	date	unemployment
0	1948	3.750000
1	1949	6.050000

Format   Code

Question 3: Display a dataframe where unemployment was greater than 8.5%. Take a screen-shot.

In [15]:
```python
import pandas as pd
links={'GDP':'https://s3-api.us-geo.objectstorage.softlayer.net/cf-courses-data/CognitiveClass/PY0101EN/projects/coursera_project/clean_gdp.csv',\
       'unemployment':'https://s3-api.us-geo.objectstorage.softlayer.net/cf-courses-data/CognitiveClass/PY0101EN/projects/coursera_project/clean_unemploy
csv_path=links['unemployment']
df=pd.read_csv(csv_path)
df1=df[df['unemployment']>8.5]
df1
```

Out[15]:

	date	unemployment
34	1982	9.708333
35	1983	9.600000
61	2009	9.283333
62	2010	9.608333
63	2011	8.933333

Format   Code

Unemployement stats according to GDP
